Covid-19 – How Hanson UK is playing a part in ensuring key infrastructure is maintained and operational

Dear Customer,

We are closely monitoring the evolving situation regarding COVID-19 and want to reassure you that the health, safety and wellbeing of our employees, customers and stakeholders is our number one priority.

Our sector is part of a critical industry, keeping the UK's roads, rail and infrastructure maintained and operational in these challenging times, and the UK Government has made it clear that construction sites can – and should – remain open.

In line with this advice, our sites continue to operate. We remain open to take your orders and will continue to deliver to you, on time and in full.

Hanson UK understands the importance of having certainty in terms of product availability: we have excellent levels of stock and our staff look forward to continuing to serve your needs while complying with health and safety advice from the Government.

Regards

Simon Willis
Chief executive officer
Hanson UK
