MIXED LOADS

We understand how important effective stockholding is to our merchant customers, which is why we offer you the ultimate flexibility in mixed loads.

FULL LOADS – CEMENT

Cements & Concretes – 2 working days delivery.
Order at least 10 pallets of:

Multicem Tough Bag	Low Carbon/Sulfate Resisting
Multicem in Plastic	White Cement
General Purpose Cement	Quickcem
High Strength 52N	

And top-up to a full load with:

Fast Set Postfix Aggregate	C40N Concrete
Postfix	Multipurpose Concrete
Sand Cement Mortars	Drive Repair Asphalt
Hydraulic Lime	Hydrated Lime

FULL LOADS – AGGREGATES

Base aggregates – next working day delivery
(for orders placed by 12.00pm)

Building Sand	Sharp Sand
Plastering Sand	Ballast
10mm Ballast	20mm Ballast
MOT Type 1 Sub Base	Granular Sub Base
10mm Limestone Chippings	20mm Limestone Chippings
Premium Kiln Dried Sand	Silver Sand
Grano Dust	

And top-up to a full load with:

Fast Set Postfix Aggregate	Cotswold Buff Chippings
Postfix	Plum Slate Chippings
C40N Concrete	Scottish Cobbles
Scottish Pebbles	

Additional ready-to-use products available by prior arrangement

Additional decorative aggregates available by prior arrangement

MULTI-PRODUCT – MIN. FIVE PALLETS

Ready-to-use products – 3 working days delivery
(for full loads, 5 working days delivery for part loads)

Fast Set Postfix Aggregate	Sand Cement Mortars
Postfix	Multipurpose Concrete
C40N Concrete	Drive Repair Asphalt

And top-up to a full load with:

Multicem Tough Bag	Monmouth Green Chippings
Multicem in Plastic	Pea Gravel
General Purpose Cement	Pearl Grey Gravel
Silver Sand	Plum Slate Chippings
Playpit Sand	Scottish Cobbles
Premium Kiln Dried Sand	Scottish Pebbles
Blue Slate Chippings	Scottish Red Chippings
Boreham White Gravel	Solent Gold Gravel
Canterbury Durite Dashing Spar	Staffordshire Pink Gravel
Cotswold Buff Chippings	White Spar
Green Slate Chippings	York Gold Gravel

➤ PLASTIC REDUCTION

As part of our sustainability commitments we are helping our customers reduce the amount of plastic they use. For some products plastic packaging is needed due to the demands of the products themselves, but we have introduced recycled content, and offer effective alternatives such as the Tough Bag.

**WEATHERPROOF FOR
SHORT-TERM OUTDOOR

> CEMENTS AND LIMES

Product	Recommended for	Bag size	Pallet quantity	Storage	Shelf-life	Barcode	Manufacturer code
Multicem in Tough Paper 	Mortars, Concrete (although less suitable than General Purpose cement), Renders, Screeds Multicem is a premium, 42,5N strength cement that makes fluffier, more workable mortar and provides enhanced frost-resistance. Packaged in Tough Bag which is weatherproof for short-term outdoor storage, and which significantly reduces PRN costs due to very low plastic usage.	25kg	56 bags per pallet, shrink-wrapped	Product supplied in tough bag – weatherproof for short-term outdoor storage	6 months	5020234003092	190140
Multicem in Plastic 	Mortars, Concrete (although less suitable than General Purpose cement), Renders, Screeds Multicem is a premium, 42,5N strength cement that makes fluffier, more workable mortar and provides enhanced frost-resistance. Available in extra tough weatherproof plastic that can be stored outside, and is easier to open and dispense.			Waterproof plastic packaging – suitable for outside storage	12 months	5020234003474	190097
General Purpose Cement 	Mortars, Concrete, Renders, Screeds An everyday cement which doesn't contain any admixtures. Available in 32,5R strength classification from Padeswood, and 42,5N from Ketton and Clitheroe.			Product supplied in paper bag – store in a dry place	6 months	5020234003108	190098
Low Carbon Cement/ Sulfate Resisting 	Low carbon concrete and below-ground brickwork beneath the damp-proof course Containing Ground Granulated Blastfurnace Slag (GGBS), this cement reduces carbon emissions by approximately 50% compared to a normal CEM II. GGBS also provides sulfate-resisting properties for use in clay soils and contaminated land.			Product supplied in paper bag – store in a dry place	6 months	5020234003146	190099

Hanson Academy MERCHANT

Keeping you in the know

What's the Hanson Merchant Academy?

At Hanson, we know that you stock a vast range of complicated products and can't be expected to know everything about every single one. To help you find out more about our cement and ready-to-use products, we've launched the **Hanson Merchant Academy**, a set of online training modules aimed at giving you the knowledge you need about our core products.

Why should I complete the training?

Completing these online modules will help you grow your sales by:

- delivering an even better service to your customers
- knowing which products are best suited to the jobs your customers are completing
- knowing where products can be positioned in your branch
- taking advantage of added-value products to give your customer the right product, for the right job, at the right time.

Each module only takes around ten minutes to complete and as a thank you for taking part, we'll send you a free goody bag after you've completed the module.

How do I get started?

Taking part is easy. Simply register at hanson-academy.co.uk
