

# Sharp Sand

## Technical Data Sheet

### PACK SIZE

Available in Maxipack and Bulk bags

### DESCRIPTION

A washed sand conforming to BS EN 13139 Aggregates for mortar. The typical moisture content is 5%.

### USES

Production of concrete, renders and screeds. Can also be used for laying paving slabs and block paving.

### Mix Design

For detailed advice on concrete mixes and their constituent materials please consult BS 8500 Parts 1 and 2. For general guidance refer to [www.hanson-packedproducts.co.uk/en/products/cements](http://www.hanson-packedproducts.co.uk/en/products/cements).

### HEALTH AND SAFETY

As with all naturally-occurring silica sands, small amounts of respirable silica may be present.

If inhaled in excessive quantities over extended periods, respirable silica can constitute a long-term health hazard. Refer to full Material Safety Data Sheet for further information.

For cementitious mixes, follow health and safety advice detailed for cement.
